Product Datasheet

Model Number: CT-KPS31-20-RM

Numeric metal keypad with LCD display

Protection Level: IP65

Lifespan: > 5 years.

Interface: HX,pin connector and USB are available

Supply Voltage: +5V DC +/- 5%

LED voltage optional: 5V

Operating temperature: - 30C to +85C

Storage temperature: - 20C to +70C.

Panel dimensions: 146.0mm x 120.0mm

Display: LCD 32X2

Dustproof, Water proof, Vandalism resistance

Mounting type: Rear Mounting

No. of keys: 20 keys, high quality stainless steel

Key switch Technology: Metal dome

Key switch lifetime: > 2 million of operations.

Actuation Force/travel: 1N/0.5mm

Lettering: laser engraved legends for excellent durability

Standard :GB T 14081-2010

G.W.: 0.45kg. 60 pcs per ctn

All languages version are available on request .

Application fields:

Fuel dispenser and other factory equipment

Add: No.6 First Rd,Western industrial Park Lubu Town,YuYao, Zhejiang,China
